Lehigh Fall 2025 Hackathon: Park A Lot

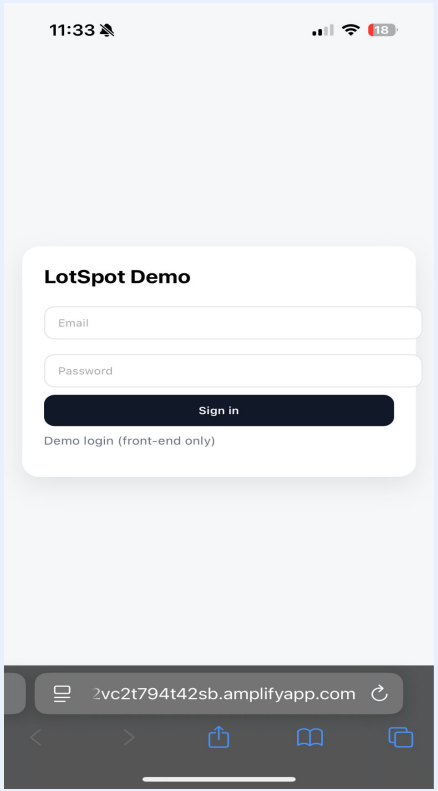

The problem

EW Fairchild-Martindale Library
St. Peter's Evangelical Lutheran Church
Lehigh Valley Children's Centers
Lehigh University MBA
Packer Memorial Church
Lewis Lab
PC Rossin College of Engineering and...
Taylor Gymnasium
Alumni Memorial Bldg
Linderman Library
Baker's Junction Lehigh University
Lehigh University Environmental Initiative
The Dialogue Center
UC
Lehigh University
Delta Upsilon
Authorized vehicles only
Must have permit
Meter parking
Construction Zone
Micah Golomb-Leavitt & Lucy Zhou / B&W Staff
Data & Graphics

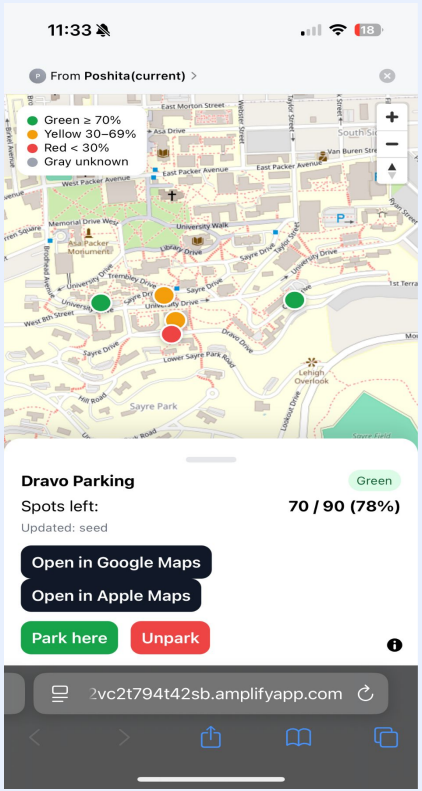

REMOVE BEFORE OPERATING VEHICLE
PARKING
PERMIT
ID NUMBER

Introducing: Park A Lot

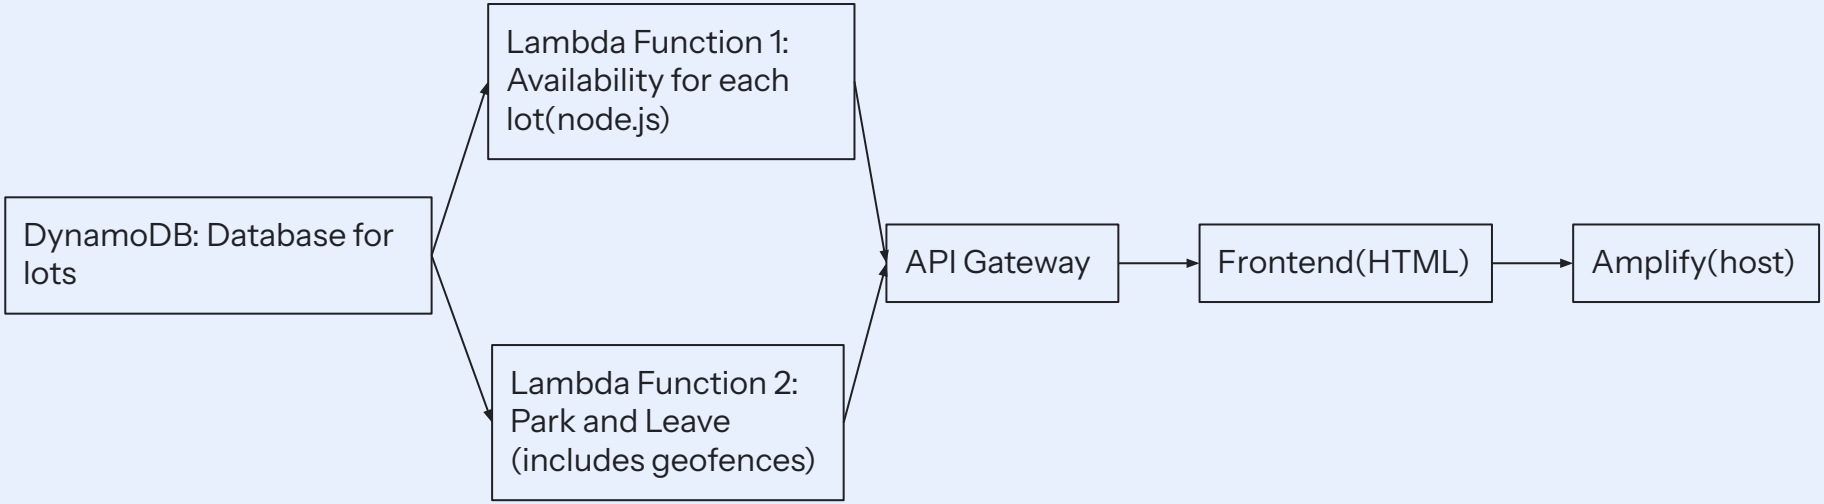

User Interface

Workflow

Lambda Function 1: Availability for each lot(node.js)
DynamoDB: Database for lots
API Gateway
Frontend(HTML)
Amplify(host)
Lambda Function 2: Park and Leave (includes geofences)

Next steps and areas of improvement

Verifying if someone is actually in a parking spot(rating system, hardware integration)

App instead of web

Login details saved in database
